Using the NEH Funded Projects Query Web API  
(updated October 2021)

The NEH Funded Projects query form (https://securegrants.neh.gov/publicquery) can be used to search for any grant made by the agency. You can also construct queries using our API. To do so, you simply send a URL containing the appropriate query parameters and values.

Here is a sample URL that uses most of the available parameters (copy and paste it into a browser to see the results). The table below lists each parameter you can use when constructing your querystring.

https://securegrants.neh.gov/publicquery/main.aspx?q=1&a=0&n=1&ln=Westfall&fn=Richard&o=1&ov=Indiana%20University%2c+Bloomington&k=1&kv=scientific+revolution&kj=and&w=1&f=1&fv=3181&s=1&sv=IN&cd=0&pv=65&d=1&dv=6&at=1&atv=1&y=1&yf=1980&yt=1990&prd=0&cov=0&prz=0&wp=0&sp=0&ca=0&arp=0&ob=name&or=ASC

Control parameters are in red / Value parameters are in black. See notes section for details.

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>q=1 or g=1</td>
<td>[q=1 for multi-grant query; g=1 for single-grant query. See notes.]</td>
</tr>
<tr>
<td>&amp;a=0</td>
<td>[If query includes grant number, then a=1. Else a=0]</td>
</tr>
<tr>
<td>&amp;gn=RH-20805-87</td>
<td>[Grant number assigned by NEH. Use only if g=1 and a=1]</td>
</tr>
<tr>
<td>&amp;n=1</td>
<td>[If query includes name, then n=1. Else n=0]</td>
</tr>
<tr>
<td>&amp;ln=Westfall</td>
<td>[Last name]</td>
</tr>
<tr>

</tr>
<tr>
<td>&amp;ca=0</td>
<td>[Return grants funded by 2020 CARES Act, set ca=1. Else ca=0]</td>
</tr>
</tbody>
</table>
&arp=0  [Return grants funded by 2021 American Rescue Plan, set arp=1. Else arp=0]

&ob=year  [Sort by. amt=Amount; year=Year; div=Division; org=Organization name; prg=Program name; name=PD name]

&or=DESC  [Sort direction. Ascending=ASC; Descending=DESC]

**NOTES**

**Control Parameters.** The parameters in red are "control parameters." Every URL must contain all the control parameters (with one exception – see **Grant Number Query below**).

**Value Parameters.** The parameters in black are "value parameters." These contain the actual search values. They are only included in the URL if their corresponding control parameter is set to 1.

**Grant Number Query.** If you know the grant number (e.g. HD-50346-08), this query will return one and only one result. Therefore you do not need to use all the control parameters. Instead, you can use a simplified format for the query URL, as follows:

**Multiple Project Fields.** You can provide a list of project fields in your query string, as in the table, instead of a single value. If the list is comma-delimited (&fv=3181,3233), the API will return results matching ANY of the values; if the list is semicolon-delimited (&fv=3181;3233), it will return results matching ALL of the values.

**Multiple Grant Programs.** You can provide a comma-delimited list of grant programs in your query string, as in the table, instead of a single value, e.g. &pv=314,315. The API will return results matching ANY of the values.

**Percent Encoding.** Any text that contains spaces or reserved characters must be percent-encoded. In the above example, the phrase "Indiana University, Bloomington" is percent-encoded to: "Indiana+University%2c+Bloomington." For more information about percent-encoding, see this Wikipedia article: [https://en.wikipedia.org/wiki/Percent-encoding](https://en.wikipedia.org/wiki/Percent-encoding)

**Using a Subset of Parameters.** There is no need to use every parameter in each URL. In most cases, you would only query with the minimum number of fields to achieve the result set you are looking for. For example, to search for all grants in Alabama from 2000 to 2015, you would construct the following URL. Note that it includes all the control parameters; however, all are set to 0 except for the State (Alabama) and the Date Range control parameters, which are both set to 1, followed by the corresponding value parameters. **Value parameters are only included if their control parameter is set to 1.**

https://securegrants.neh.gov/publicquery/main.aspx?q=1&a=0&n=0&o=0&k=0&f=0&s=0&y=1&yf=2000&yt=2015&cd=0&pg=0&ob=year&or=DESC

**Years-only Queries.** To prevent timeout errors, the API will not accept queries where the only parameters specified are dates and the date range is longer than six years. If you provide criteria in addition to the date range (as in the previous example), this limit is not enforced. So this URL will return a message that the limit has been exceeded:

https://securegrants.neh.gov/publicquery/main.aspx?q=1&a=0&n=0&o=0&k=0&f=0&s=0&cd=0&p=0&d=0&at=0&y=1&yf=1966&yt=2020&pr=0&cov=0&prz=0&w=0&pg=0&ob=year&or=DESC

This one, where the date range is six years, will not:

https://securegrants.neh.gov/publicquery/main.aspx?q=1&a=0&n=0&o=0&k=0&f=0&s=0&cd=0&p=0&d=0&at=0&y=1&yf=2011&yt=2017&pr=0&cov=0&prz=0&w=0&pg=0&ob=year&or=DESC
**Hard-Coded Parameters (e.g. NEH divisions, project fields).** Some of the parameters must be hard-coded numeric values. For example, if you wish to search for projects only within a given NEH division or office, you can't pass the name of that office. Rather, you must know its numeric ID. The NEH Division of Research Programs has a value of 6, so in our current example, you see &dv=6. Note that while these numbers generally do not change, there is no guarantee that they won't. For some queries, you may wish to avoid hard-coded parameters if they aren't needed. As of this update (October 2021), here is the current list of NEH divisions and offices and their numeric IDs:

<table>
<thead>
<tr>
<th>#</th>
<th>Division</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Preservation and Access</td>
</tr>
<tr>
<td>2</td>
<td>Public Programs</td>
</tr>
<tr>
<td>4</td>
<td>Challenge Programs</td>
</tr>
<tr>
<td>5</td>
<td>Federal/State Partnership</td>
</tr>
<tr>
<td>6</td>
<td>Research Programs</td>
</tr>
<tr>
<td>7</td>
<td>Education Programs</td>
</tr>
<tr>
<td>8</td>
<td>Agency-wide Projects</td>
</tr>
<tr>
<td>12</td>
<td>Digital Humanities</td>
</tr>
</tbody>
</table>

Current lists of project fields and their numeric IDs, NEH grant programs and their IDs, organization types and their IDs, and product/coverage types and their IDs are appended to this document. Use them in constructing your queries.

**Using the Funded Project Query Form.** You can use our query form (https://securegrants.neh.gov/publicquery) to construct valid URLs in order to gain a better understanding of the API and to troubleshoot your URLs. If you submit a query that cannot be parsed, the form will provide a link to the empty form where you can start a fresh query.
### NEH project fields

For multi-field queries, use comma-delimited list (fv=3181,3128) in querystring for ANY, semicolon-delimited list (fv=3181;3128) for ALL.
